

Ref: 902 ND

Position Type:

.Net Developer

Assignment/Scope of Work:

The TREDs project processes crash reports from police organizations in Virginia and has been running since 2007. This development role would be the 2nd developer on the project for various enhancements.

A thorough knowledge of .net development methodologies with modern .net tools and technologies such as studio 2019+, TFS, Azure devops, .net framework 3.5+, entity framework, MVC (Razor), webservice using JSON (restful), XML, Soap/etc.

This position will serve as the second developer creating enhancements/extending the capabilities of the system that has been in place and continually evolving since 2007. This is an agile environment with defined sprints and associated processes (daily morning standups, estimation, retrospectives, etc).

Front end web UI development using responsive design (using tools/frameworks like bootstrap) is a desired plus.
